Spring – Summer 2021

— *New Arrivals*

I am proud to introduce our Spring / Summer 2021 collection where soft shapes and vibrant tones radiate positive energy.

In these uncertain times the concept of home has taken on an ambiguous meaning. As our behavior in the home changes so does our relationship to it. Energize your space with bright design details for an instant and refreshing lift.

Inspired by the free-flowing and alluring shapes of the swinging '60s, our new objects invite fluid forms into your space. Bursting with joyful prints and combining functionality with design, you will feel like you are part of one of the most stylish decade ever.

Our surroundings can easily impact our emotions and a brave splash of colour encourages a positive mind. Immerse yourself in the bright warmth of pink, cheerful tangerine and uplifting purple of our new paper vases and catchalls. To boost your mood even more, we have added several jazzy bookmarks to our iconic sunglasses collection.

Stay positive, stay happy!
